

## REMARKS

This Amendment corrects claim language in accordance with the comments of the Advisory Action.

To overcome the examiner's objection of claims 1 and 19 over uncertainty as to what the redistribution is based on, the phrase "based on said negotiating" is omitted.

To overcome the examiner's objection of claims 1 and 19 over the uncertainty whether the claimed "agent" is part of the holding entity or the bidding entity, this Amendment changes "agent" to "said holding entity."

To overcome the Examiner's objection of claim 1 over the "redistribution" step lacking a tangible result, the phrase "**redistribution of** said supply" is changed to the more active language of "**redistributing** said supply." This change clarifies that the limitation refers to the tangible act of redistributing a resource, in contrast to an abstract thought process.

The application is therefore now be in condition for allowance, and allowance is requested.

Respectfully submitted,
